ELECTRICAL
WIRE PROCESSING
TECHNOLOGY EXPO

MAY 8 & 9, 2019
MILWAUKEE, WI
@ THE WISCONSIN CENTER

REGISTER BY APRIL 17, 2019 - ADMISSION FEE ($20) WILL BE WAIVED!

Badge good for both days of the Expo. All credentials will be mailed out after April 18. No one under the age of 16 admitted. You can also register in person for a $20 two-day admission fee at the door. Avoid the registration and badge printing lines by registering before the deadline!

THE SINGLE BEST RESOURCE FOR TAKING YOUR BUSINESS TO THE NEXT LEVEL

Decision makers who design, purchase, sell, install and maintain electrical manufacturing equipment for the wire and cable processing industry attend every year to continually strengthen partnerships and establish new alliances to grow their business.

- Discover new technologies to increase your future productivity; learn how to better use your existing resources to become more efficient and competitive.
- Meet in person the designers of the machines/products; plus industry experts with valuable information and industry insight.
- Profit from networking opportunities that abound throughout the show, including sponsored food and beverage breaks and the VIP Party on Wednesday night.

IPC WORKSHOP ON TUESDAY, MAY 7

"The Evolution of IPC's Cable & Harness Documents: IPC-D-620, IPC/WHMA-A-620 and IPC-HDBK-620" presented by Robert Wm. Cooke, Aerospace Engineer, Special Processes Technical Expert. Essential to the performance and reliability of any electrical/electronic system, cables and wiring harnesses are oftentimes the "taken for granted" component in designs. Learn more and register @ www.ipc.org/TechEd19-Milwaukee

EDUCATION HAS ALWAYS BEEN A CORNERSTONE OF THIS EVENT

ALL SEMINARS ARE FREE and led by industry experts to provide insights into the future and help you with your toughest challenges.

Topics of Seminars to date:
Tariffs and Customs Taxes, Innovation in the Large Cable Market, Cable and Wire Harness Testing, OEE [Overall Equipment Effectiveness], Crimping, IPC A-620, And more.

SEE YOU THERE
